STATES, CANADA, MEXICO

**SAM Registration:** Active

**Business Size:** Small

**Accept Major Credit Cards**

## Certifications

WBENC National Certificate

Number: 2005128437

## CAPABILITY STATEMENT

### Company Overview:

In 2013, Shirley K's was established as a plastic thermoforming manufacturer. We serve Education, Food Handling and Industrial Markets both commercially and through Government Contracting. By offering a broad range of sustainable pre-existing goods and new concept design, tooling and prototyping we supply our customers with a full circle solution to their storage and material handling needs. From shelving to carts, trays, bulk boxes, automated systems totes and pallets we produce endless items in our 20,000 square foot production facility in Zanesville, Ohio. With growing revenue and capacity over the past 5 years, our annual sales average is \$1,600,000.

### Core Competencies:

- Advanced technologies for low cost design development, testing, and customization
- Select from a wide range of existing products
- Purchase specific materials, colors, finishes, and specifications
- Receive quotes within 24 hours

### Differentiators:

- Low cost tooling for low volume runs and prototyping
- Heavy duty and versatile products that outlast all others in the market
- 70 years of family based thermoforming knowledge and innovation
- Wide variety and customization options
- One on one customer service and sales representative support
- Minority ownership-Women Owned Small Business
- No minimum buy requirements on stock items
