CAPABILITY STATEMENT

Company Overview:

In 2013, Shirley K's was established as a plastic thermoforming manufacturer. We serve industrial markets both commercially and through government contracting. We feature a broad range of sustainable pre-existing products as well as new concept design and development for custom parts. Our product offerings include: hinged top containers, bulk bins, work in process and automated system totes, and pallets. Our 25,000 square foot manufacturing and distribution facility is located in Central Ohio.
